Operation	4
Care and Maintenance	5
Warranty	6

GETTING STARTED

Carefully remove the Aero ✓ Quattro unit from the carton and remove the packing material. Please read the warning label at the end of the electrical plug and leave it in place for the life of your air filter.

SPECIFICATIONS

Watts: 40

Voltage: 110-120V - 60 CYCLE

220-240V 50 CYCLE

Maximum room size: 27.9 m² (300 ft.²)

WARNING!

“TO REDUCE THE RISK OF ELECTRICAL SHOCK, THIS EQUIPMENT HAS A GROUNDING TYPE PLUG THAT HAS A THIRD (GROUNDING) PIN. THIS PLUG WILL ONLY FIT INTO A GROUNDING TYPE POWER OUTLET. IF THE PLUG DOES NOT FIT INTO THE OUTLET, CONTACT QUALIFIED PERSONNEL TO INSTALL THE PROPER OUTLET. DO NOT ALTER THE PLUG IN ANY WAY.”

Aero ✓ Quattro can be used in any room in your house. Place the air filter in a location (on a tabletop, the floor, or mounted on a wall) which allows air to circulate freely around and into the front vents and out the top vents.

Avoid placing anything on top of your air filter! Large items will restrict air flow and small items can fall through the grill and damage the fan. Do not use an extension cord and keep cord and unit in a dry area.

HOW AERO ✓ QUATTRO WORKS

Aero ✓ Quattro has an exclusive multi-stage filtering system ... this means as air passes through the filter, it is cleaned MULTIPLE times! The **Multi-Stage Filter Cartridge** is an innovative, technological break-through, incorporating the following stages:

- Stage 1: Aero ✓ Tech™ Pre-Filter
- Stage 2: True H.E.P.A. Filter
- Stage 3: Micro Anti-Microbial Filter
- Stage 4: High Capacity Activated Carbon Filter

Plus

- Stage 5: Ionization

Multi-Stage Filter Cartridge

Stage 1 The Aero ✓ -Tech™ Pre-Filter: An advanced foam-type filter with millions of microscopic pores that strain out particles. This unique combination of pre-filtering substantially reduces the pollutants in the air before they can clog up the sub-micron filters in stages 2-4.

Note: The front of the cartridge can be carefully vacuumed if necessary.

Stage 2 True H.E.P.A Filter (High Efficiency Particulate Arrestor): Rena Ware's True HEPA filter enables Aero ✓ to filter the air with maximum effectiveness. It is designed to trap over 99% of most airborne particles, including pollen, dust, pet dander, mold, bacteria, and much more.

Stage 3 Micro Anti-Microbial Filter: This finely woven filter captures any possible surviving micro-organisms with a special anti-microbial treated material.

Stage 4 High Capacity Activated Carbon Filter: Aero ✓'s air filtration process continues with a high capacity carbonized filter pad acting like a sponge to filter the air stream by absorbing a wide range of gases, chemicals, and odors.

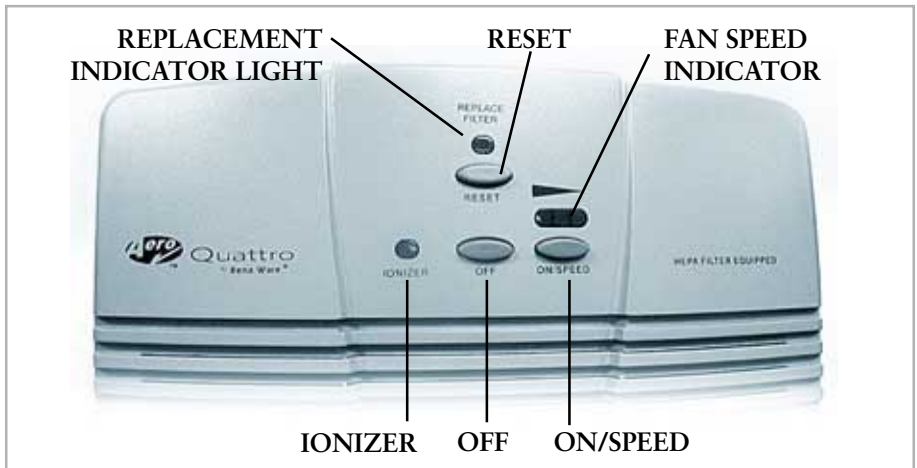

Stage 5 Ionization: The Ionization feature works continually to emit a mild charge that freshens stale room air.

The final result is filtered air re-circulated two times per hour in a room 4.7m x 6m (15 ft. x 20 ft.) giving a cleaner, more comfortable environment.

OPERATION

The operation of Aero ✓ Quattro is simple. Plug your air filter into a properly grounded power source. When turning the power on, the fan speed will automatically start at the “medium” setting, then adjust itself to the “low” setting. You may then press the electronic control switch marked “ON/SPEED” to the desired low, medium, or high speed — this will automatically turn on your ionization stage as well. Note: do not place any items on top of your air filter.

WARNING! “DO NOT USE AN EXTENSION CORD! THIS UNIT HAS A GROUNDED-TYPE PLUG TO AVOID THE RISK OF SHOCK.”

ON/SPEED: Turns filter on and toggles fan speed between low, medium, and high.

OFF: Turns filter off.

FAN SPEED INDICATOR: Indicates fan speed (low, medium, or high)

IONIZER: Shows Ionizer is functioning.

REPLACEMENT INDICATOR LIGHT: Shows when to replace filter.

RESET BUTTON: The Reset Button can be used to reset filter life timer after replacing filter cartridge. To do this, push and hold button for 5 seconds and the Replace Filter light will go out and the timer will be reset.

CARE AND MAINTENANCE

Your Aero ✓ Quattro is easy to maintain. The outside can be cleaned using a soft cloth. You can dry-vacuum the front of the filter cartridge if you feel it is needed. You will need to replace the filter cartridge periodically, after approximately one year of use. The replacement indicator light will glow when your current filter cartridge is ready for replacement. The filter cartridge is easy to replace and is completely disposable.

A new replacement filter cartridge can be purchased from your Rena Ware Consultant or from the Customer Service Center closest to you. See the Customer Service Center listing on separate enclosed sheet.

When requesting a replacement cartridge filter, please refer to ITEM #GLK-02.

Removing and Replacing the Filter Cartridge

- A. Turn off the air filter and unplug from the outlet.
- B. To remove the filter cartridge, gently grasp the top center of the front panel. Pull off the front panel and set aside.
- C. Pull the filter cartridge out of the air filter using the upper tab. Place the old filter cartridge in the container your new filter cartridge was shipped in and dispose of properly.
- D. Slide the new filter cartridge into the air filter holding the filter cartridge tab. Gently push it into the housing until the plastic tab is against the cabinet's top edge.
- E. To replace the front panel, gently slide the top of the panel on to the cabinet, and gently push the bottom of the panel into the air filter base unit. Note: The Aero ✓ Quattro will not turn on unless the panel is shut tight.
- F. After replacing the filter cartridge, plug unit in and turn on. Hold the "replace" button for five seconds to reset the indicator light.

Wall Mounting

In some cases, you may want to wall-mount your Aero ✓ Quattro. A mounting package with instructions is provided with your air filter.

Questions

Should you ever have any questions or concerns about the operation of your Rena Ware Aero ✓ Quattro Air Filtration System, you can contact your Consultant or Rena Ware Customer Service Center. (See Customer Service Center listing on separate enclosed sheet).

THE RENA WARE WARRANTY

Rena Ware warrants its Aero ✓ Quattro Air Filtration System to be free from defects in materials and workmanship for one year from the date of purchase.

This Product is designed for residential use only. This warranty does not cover normal wear and tear, or blocking of cartridge due to operation in extreme conditions.

This Warranty does not cover defects resulting from misuse, abuse, negligence, accident, use of the Product in a manner other than as described in the instructions and on the specifications label, repair or alteration outside a Rena Ware facility, or lack of maintenance. Use of replacement parts other than genuine Rena Ware replacement parts or removal of the specifications label will void this Warranty.

This Warranty does not cover incidental or consequential damages resulting from the use of this Product.

Remedy in the Event of Warranty Claim

At its option, Rena Ware will repair or replace a Product, or any part thereof, which is determined to be defective within one year from the date of purchase. If a replacement is made, the Product for which the replacement is made becomes the property of Rena Ware. **This remedy shall be the exclusive remedy available.**

To Obtain Warranty Service

To obtain warranty service, send a detailed written description of the claimed defect to the nearest Rena Ware Service Center. You may be required to return the Product, at your expense, to the nearest Rena Ware Service Center in order to obtain warranty service. You may also be required to provide proof of purchase. If, after inspection, Rena Ware determines that a covered defect exists, Rena Ware will bear the cost of return delivery.

Other Warranty Limitations

This Warranty is in lieu of all other express warranties. Any implied warranty shall be equal in duration to the above express Warranty.

Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, or do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This Warranty gives you specific legal rights. You may also have other rights which vary from jurisdiction to jurisdiction. This Warranty applies to Aero ✓ air filtration systems only. Separate warranties apply to cookware and other Rena Ware products.
